PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in Manual Testing and Selenium WebDriver automation using Java, TestNG, Page Object Model, and Maven. Experienced in functional, regression, smoke, sanity, UI, integration, and exploratory testing. Designed 200+ test cases and automated 50+ regression scenarios for EspoCRM across Accounts, Contacts, Leads, and Opportunities, including defect identification, documentation, and verification. Working knowledge of Postman, REST API testing, SQL, JIRA, Git/GitHub, Jenkins, and Cucumber/Gherkin. Brings 10+ years of professional experience in quality coordination, issue investigation, process monitoring, reporting, and cross-functional collaboration.

CORE COMPETENCIES

Manual Testing:	Functional Regression Smoke Sanity System Integration UI Exploratory
Test Engineering:	Test Scenarios Test Cases Test Data RTM Defect Reports Execution & Summary Reports.
Automation:	Selenium WebDriver Java TestNG Page Object Model Maven.
API & Database:	Postman REST API Testing SQL.
Tools:	JIRA Git GitHub Jenkins.
Methodologies:	SDLC STLC Agile/Scrum Cucumber/Gherkin Cross-Browser Testing.

QA PROJECT

EspoCRM QA Automation Project | Web Application

Technology: Selenium WebDriver • Java • TestNG • Maven • Page Object Model • Git/GitHub

- Designed 200+ functional, positive, and negative test cases covering Accounts, Contacts, Leads, and Opportunities workflows.
- Executed functional, smoke, and regression testing to validate UI elements, field validations, navigation, and end-to-end business workflows.

- Identified, documented, and verified 2 defects with clear reproduction steps and expected/actual results.
- Automated 50+ regression scenarios using Selenium WebDriver, Java, and TestNG with Page Object Model and created reusable page classes and utilities.
- Managed automation scripts and project changes using Git/GitHub and maintained organized test automation code.

PROFESSIONAL EXPERIENCE

Production & Sales Manager | Zam Zam Plastic, Chennai | Nov 2020 – Present

Managed production operations and quality coordination, monitored process issues, investigated quality concerns, coordinated corrective actions, maintained quality and operational reports, and collaborated with cross-functional teams to drive issues to closure.

Account Manager | NoBroker Technologies Pvt. Ltd. | Mar 2020 – Nov 2020

Managed customer accounts, investigated and coordinated resolution of service issues with internal teams, maintained accurate records, monitored service activities, and followed issues through to closure.

Relationship Manager | Pramerica Life Insurance | Nov 2019 – Feb 2020

Managed customer requirements and documentation, coordinated service requests with internal stakeholders, monitored issue resolution, and maintained accurate records.

Executive | ACT Fibernet | Jun 2018 – Oct 2019

Handled service queries, investigated customer issues, coordinated resolution with relevant teams, maintained issue-tracking records, and followed up on unresolved cases.

Customer Service Supervisor | Tata Sky | Aug 2016 – May 2018

Supervised customer escalations and service-quality follow-up, coordinated team activities, monitored issue resolution, and ensured escalated cases were driven to closure.

Customer Support – L3 | Aegis Ltd. | Nov 2015 – Jun 2016

Investigated escalated customer issues, performed issue analysis, coordinated solutions across teams, and followed up to ensure effective resolution.

EDUCATION & QA TRAINING

B.E., Mechanical Engineering | Seva Rathna Vallal RCK College of Engineering (Affiliated to Anna University), 2015

Entri Elevate — Software Testing / QA | Manual Testing, Selenium WebDriver, Java, TestNG, POM, Maven, API Testing, SQL, Git/GitHub, Jenkins, Cucumber/Gherkin, JIRA | Completed Sep 2026
