PROFESSIONAL SUMMARY

QA Engineer transitioning into software testing with hands-on experience through a structured QA automation project. Skilled in Manual Testing and Selenium WebDriver automation using Java, TestNG, Page Object Model, and Maven, with practical experience in functional, regression, smoke, sanity, UI, and integration testing. Designed 200+ test cases and automated 50+ regression scenarios for EspoCRM across Accounts, Contacts, Leads, and Opportunities, including defect identification and documentation. Working knowledge of Postman, REST API testing, SQL, JIRA, Git/GitHub, Jenkins, and Cucumber/Gherkin. Brings 10+ years of professional experience in issue tracking, quality coordination, process monitoring, and cross-functional collaboration.

CORE COMPETENCIES

Manual Testing	Functional • Regression • Smoke • Sanity • System • Integration • UI • Exploratory
Test Engineering	Test Scenarios • Test Cases • Test Data • RTM • Defect Reports • Execution & Summary Reports
Automation	Selenium WebDriver • Java • TestNG • Page Object Model • Maven
API & Database	Postman • REST API Testing • SQL
Tools	JIRA • Git • GitHub • Jenkins
Methodologies	SDLC • STLC • Agile/Scrum • Cucumber/Gherkin • Cross-Browser Testing

QA PROJECT

EspoCRM QA Automation Project | Web Application

Technology: Selenium WebDriver • Java • TestNG • Maven • Page Object Model • Git/GitHub

- Designed 200+ functional, positive, and negative test cases covering Accounts, Contacts, Leads, and Opportunities workflows.
- Executed smoke and regression cycles, validating UI elements, field validations, navigation, and core business workflows; documented results.
- Identified and documented 2 defects with clear reproduction steps for issue tracking and verification.
- Automated 50+ regression scenarios using Selenium WebDriver, Java, and TestNG with Page Object Model; created reusable page classes and utilities.
- Managed automation scripts and project changes using Git/GitHub for version control.

PROFESSIONAL EXPERIENCE

Production & Sales Manager | Zam Zam Plastic, Chennai | Nov 2020 – Present

- Managed production operations and quality coordination; identified and tracked process issues, coordinated corrective actions, maintained reports, and collaborated across teams.

Account Manager | NoBroker Technologies Pvt. Ltd. | Mar 2020 – Nov 2020

- Managed customer accounts, coordinated issue resolution with internal teams, maintained accurate records, and monitored service activities.

Relationship Manager | Pramerica Life Insurance | Nov 2019 – Feb 2020

- Managed customer requirements and documentation and coordinated service requests with internal stakeholders.

Executive | ACT Fibernet | Jun 2018 – Oct 2019

- Handled service queries, investigated issues, coordinated resolution, and maintained tracking records.

Customer Service Supervisor | Tata Sky | Aug 2016 – May 2018

- Supervised escalations and service-quality follow-up, coordinated team activities, and drove issues to closure.

Customer Support – L3 | Aegis Ltd. | Nov 2015 – Jun 2016

- Investigated escalated customer issues and coordinated solutions across teams.

EDUCATION & QA TRAINING

B.E., Mechanical Engineering | Seva Rathna Vallal RCK College of Engineering (Affiliated to Anna University), 2015

Entri Elevate — Software Testing / QA | Manual Testing, Selenium WebDriver, Java, TestNG, POM, Maven, API Testing, SQL, Git/GitHub, Jenkins, Cucumber/Gherkin, JIRA | Completed Sep 2026
